Draw, paint, sculpt the figure anytime and anywhere with this portable figure reference. MonikaT013 shows you ONE pose photographed on a rotating platform. 30 photos--one every 15 degrees as the model turns through a full circle, plus alternate views--provide a complete 360-degree view around the figure. It includes one close-up portrait photo, perfect for portrait drawing or painting and close-ups of the hands. The photos are repeated showing a zoomed in view of the torso for better viewing on e-readers. Choose your preferred view for 2D art, like painting, or see the whole figure for 3D art, like sculpture. Zoom in to see details in hands and face and other tricky areas, giving you even more options for how to use the photos. Whatever your goal, such as practicing to improve your skills, or creating a finished work of art, or just unwinding at the end of a long day with some figure drawing, PoseSpace.com poses provide a quality reference you can come back to again and again. Don't spend hours searching for

reference material only to find photos of questionable content and dubious quality. We've spent years in the studio and you get the benefit--expertly crafted photos designed specifically for figure art so you can get right to the part you actually like: creating art. This ebook has the MonikaT013 Pose from PoseSpace.com, as shown on the cover.
