"Crítica de la Razón Pura", de Immanuel Kant, Se trata de una indagación trascendental (acerca de las condiciones epistémicas del conocer humano) cuyo objetivo central es lograr una respuesta definitiva sobre si la metafísica puede ser considerada una ciencia. Entre otras cosas, Kant intenta superar la crítica al principio de causalidad (y por lo tanto al saber científico) que había hecho el empírista David Hume, que no tenía una respuesta satisfactoria hasta su época.
