Dot Con is the story of what happened when James Veitch decided to play the scammers at their own game, providing a hilarious showcase of the conversations he orchestrates with online imposters. Naturally, James replies with an offer of help, ready to wire money by Western Union (it's always Western Union) safely and securely, but not before the recipient has given something in return. Whether it's his long-lost love recounting tales of their favourite moment together, or the business man providing a quote for James' new book, it's amazing to see how easy it can be to scam the scam artists.
