«Voy a ser muy claro: si tiene algún valor, vamos a robarlo. ¿Os apuntáis?»

Gideon Crew, científico brillante y ladrón de enorme talento, se ha quedado sin trabajo: su antiguo jefe, Eli Glinn, ha desaparecido sin dejar rastro y ha cerrado la empresa de la noche a la mañana. No obstante, este es el menor de sus males, pues le quedan meses de vida. Mientras recogen sus pertenencias, Gideon y su colega Manuel Garza descubren que un programa informático ha logrado descifrar la tan esperada traducción del disco de piedra de una civilización perdida bajo el desierto egipcio: el disco de Festo (o disco de Phaistos).

Crew, condenado por su enfermedad, no necesita que lo persuadan para embarcarse en la aventura final con Garza. Al fin y al cabo, ¿qué riesgo corres cuando tienes los días contados?
