En un futuro castigado por la violencia y las catástrofes medioambientales, George Orr descubre que sus sueños tienen la capacidad de alterar la realidad. George buscará la ayuda del doctor William Haber, un psiquiatra que no dudará en aprovecharse de su poder. Cuando el doctor Haber empiece a manipular sus sueños en beneficio propio George deberá luchar para proteger la realidad.

La rueda celeste es una novela siniestramente profética en la que Ursula K. Le Guin aborda de forma magistral los peligros del poder absoluto y la capacidad de autodestrucción del ser humano, a la vez que se cuestiona la naturaleza de la propia realidad.
