Una de las mayores desgracias de la humanidad, ha sido y sigue siendo la ignorancia con respecto a las capacidades innatas del hombre para liderar su mejora continua.

Destacando el desconocimiento generalizado de la existencia de la mente subconsciente y cómo ponerla a trabajar para nosotros.

La ciencia nos dice que el hombre tiene y usa una máquina; la más sofisticada del universo. Su cerebro.

La función subconsciente gobierna el 90% de nuestros pensamientos, actos y sentimientos.

Este libro pone en valor las mejores técnicas para reprogramarla, a través de la ejecución de patrones adaptativos, como mecanismo de autoliderazgo estratégico.
